Custom Kit Procedure Trays

The excellence of a product starts from the quality of a thought

Create your own kit with any component of your choice!

Demand the best quality on the market!

Insist on logistics and consulting services that best suits your needs!

Med-Italy Biomedica is the leader company in the Italian Custom Kits market since 1986. It produces and assembles a full range of components for Custom Kits for different uses. All our Kits are customized and made exclusively according to the specific needs of each customer.

The main benefits of using Custom Kits are:

- savings
- a drastic reduction in the risk of infections
- standardization of procedures
- contact with a single supplier
- storage in our warehouses and deliveries staggered on request
- further changes depending on your needs
